4Runner TS1-2810 Mounting Tabs TSB

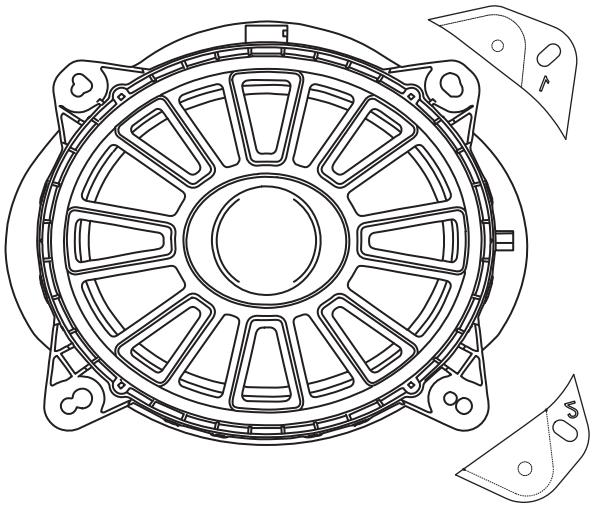

The TS1-2810 can be installed into a 2010-2024 Toyota 4 Runner with these 3d printed mounting tabs. The .stl file is included with this TSB so you can have them printed locally. If you don't have access to a 3d printer, call our Tech Support department and they can help you find one.

The tabs pressure fit onto the speaker mounting tabs. When installing the speakers the printed tabs should be pointing downward like in the Photos.

DriverDoor Mounting
